

## DIGITAL AQUITAINE

TIC Santé is part of a larger ecosystem in the South West of France, the cluster **Digital Aquitaine dedicated to sustainable development of digital economy**. Digital Aquitaine includes four other fields of activity, each of them having synergies with TIC Santé.

- Intelligent transport systems and services cluster
- Connected commerce
- Future of industry through virtual & augmented reality
- AI and data science

## Community of TIC Santé

TIC Santé brings together key players across the entire value chain of digital solutions, to help innovation in health. It includes private and public actors from a wide range of sectors : digital services, research institutions, Health care institutions and patient associations...

Distributed through 5 major fields of activity :

Digital therapeutics

AI in Health

Ethic about digital health

Interoperability and Information systems

Data management and cybersecurity

## Digital solutions for Health innovation

TIC Santé is the cluster of digital solutions for Health innovation based in the South West Region of France.

*Figures for Horizon 2020: 13 entities' participations in 11 funded projects*

## TIC SANTÉ'S MISSIONS

Our activities aim to promote the network and community of Nouvelle-Aquitaine territory, but also to provide to our members new business opportunities and new collaborations.

**Some of our members projects and use cases :**

### Information systems

- Solutions to share or to manage datas/information between professionals
- Solutions to improve transports, logistic...

### Cybersecurity

- Different kinds of solution to protect datas but also entire companies information

### Data management

- Participation to working groups of GAIA-X Foundation

### AI

- AI to improve medical operations
- AI to help professionals and the general public to access reliable, up-to-date, and useful drug information

### Digital Therapeutics

- Solutions to prevent, manage or treat a wide range of physical, mental and behavioral symptoms

## INTERNATIONAL PRESENCE

TIC Santé is positioning itself as a partner member both nationally and internationally, offering unique expertises.

Our members contribute to Europe projects aiming to develop Health innovations.

TIC Santé is also present internationally thanks to partnerships with different events, entities and clusters.

## Our aim is to develop our members and our region's European impact

- Exchange with other regions on key issues, innovations and case studies
- Promote our territory and its infrastructures to attract new experimentation projects
- Seek for new experimentation zones, partners and European projects
